

We are tired to hear bad-mouthing Masonry; we are tired to have our name blackened; we are tired to be denigrated and derided! In the all world Masonry is a paradigm of dignity, rectitude, progress and humanity.

After the dark days of P2 lodge, today top names of Italian masonry are again investigated after it has been uncovered connections - unsophisticatedly named harmonious tangles - power centres, conspiracies and more and Free Masonry is derided, burlesqued and offended, while it is well known that only a part of it (and almost always the same part) is fully responsible, at least morally, for this degradation. We want that the civil society knew about this clear distinction between masonry (lower case is hereby meant) of wheeling-and-dealing and the noble and initiatic one, which has guided the best brains of both our and others' Risorgimento. Enough is enough: and we repeat it strongly. Enough is enough! It is time to draw the line between the sacred area of Masonry and the that one who cannot fit our quality of Initiates. We have strongly stressed the point when, inside the City Council room of Locri, Italy, we claimed with strength and dignity that the real Masonry does not have anything in common with politicians intrigues, centres of power, political parties and the like. It is time to make the voice of dignity keepers, orthodoxy and truth heard. Attentive readers are welcome to express their opinions and send us comments to info@acaciamagazine.org . We really hope that a moralisation campaign will now commence: LET'S GO BACK TO THE PAST IN ORDER TO CREATE THE FUTURE! Let's go back to real Values and Principles of our beloved and noble Universal Institution! Conversely, we will keep on being hostages of a few profanes dressed up as they were masons. Enough is enough!
